

0M

[Zero Moisture]

0M is a specially modified universal product meant for use in virgin or recycling polymers industry. 0M absorbs moisture from the system which otherwise cannot be removed through conventional methods. The designed product is readily dispersible virtually in any system and does not clog / choke filtering mesh / jali. 0M is inert and does not affect the final properties of the product mechanically or chemically.

Application :

Extrusion/Molding of virgin or recycling of polymeric material or where Cellulosic fiber like Wood or other fillers containing Moisture are used.

Description

Appearance	: Off White
Dosage	: 1 to 10 phr. [Depending upon the Moisture Content]
Discoloration [During heating]	: Nil
Density at 25°C	: Approx - 3.3
Retention:- On 300mesh Sieve On 500mesh Sieve	: Traces : $\leq 0.5\%$
Form	: Non-dusting Powder
Packing [Net Weight]	: 1 Kg. Packet / 10 / 25 Kg in Bags
Desiccant Base	: CaO & Additives
Storage Stability	: In packed & sealed conditions 6 months maximum.

Unit

g/m³
